

I live in the city of San Marcos in the San Diego County. I listen to KLOVE on 100.1/FM brought to me through a signal in Julian. I have been listening to KLOVE for 3 years and find KLOVE uplifting, inspirational, and supportive. I'm sure that all of the hundreds of thousands of loyal listeners have the same sentiment. It would be a travesty to myself and the community(ies) should KLOVE be displaced by an LPFM broadcaster providing other programming. There's already a bunch of "other programming" on the air; programs that fill one with nonsense, pessimism, and cynicism. KLOVE is the one of the few Christian programs that is family friendly, inspirational, encouraging, and supports wholesome values. This type of service to the public is PRICELESS. Please, preserve this service (KLOVE) that I have come to enjoy, value, and look forward to listening to every single day.
